Mix the dry ingredients in a bowl and add softened margarine by mixing with the fingers. Add the egg and food colouring. Add a little flour if necessary. Shape the dough into a roll on a floured table and divide it into 24 parts. Form the parts into the desired shapes on an oven sheet covered with baking paper. Bake the cookies for 8-10 minutes on the upper level of the oven at 175°C.

Decorate the cookies with Princess Lillifee<sup>©</sup> Glitter gel, sprinkles and shapes.

PS. If the decorated cookies seem to girlish, use blue food or green food colouring and decorate with a jungle theme.
